Table 9. - Number of Patients and Overcrowding in State Institutions for the Insane, Feeble-Minded and Epileptic on September 30 for Five Year Periods, 1905-1940 and Yearly Periods 1941-1943[1] Inclusive.

Institutions by Years	Rated Capacity	Actual Number of Patients in Institutions	Overcrowding	
			Excess Number of Patients	Percentage
1941				
State Hospitals	18,102	21,071	2,969	16.40
Monson Hospital - Epileptic	1,165	1,557	392	33.64
State Hospitals and Monson	19,267	22,628	3,361	17.44
Bridgewater and State Infirmary	1,430	1,298	- 132	-9.23
State Schools	4,012	5,258	1,246	31.05
Total	24,709	29,184	4,475	18.11
1942				
State Hospitals	18,092	21,358	3,266	18.05
Monson Hospital - Epileptic	1,165	1,524	359	30.81
State Hospitals and Monson	19,257	22,882	3,625	18.82
Bridgewater and State Infirmary	1,430	1,386	-44	-3.07
State Schools	4,012	5,247	1,235	30.78
Total	24,699	29,515	4,816	19.49
1943				
State Hospitals	18,104	21,445	3,341	18.45
Monson Hospital - Epileptic	1,163	1,485	322	27.68
State Hospitals and Monson	19,267	22,930	3,663	19.01
Bridgewater and State Infirmary	1,430	1,450	20	1.39
State Schools	4,012	5,196	1,184	29.51
Total	24,709	29,576	4,867	19.69

NOTE: Minus sign indicates number or percentage below capacity.

(1) The 1943 figures are for the nine months ending June 30, and all years thereafter will end on June 30th.
